Wetland Flagging West of Parking Lot

A close-up photograph of a hand holding a bright pink, rectangular flag. The flag is slightly wrinkled and has several small water droplets on its surface. It is being held against a background of green grass and some dry, brownish vegetation. The flag has two lines of handwritten text in dark ink. The first line reads 'T1- END' and the second line reads 'T2- START'. The hand holding the flag is visible on the right side of the frame.

T1- END

T2- START

Note: At Kane County Otter Creek Prairie Restoration Site**

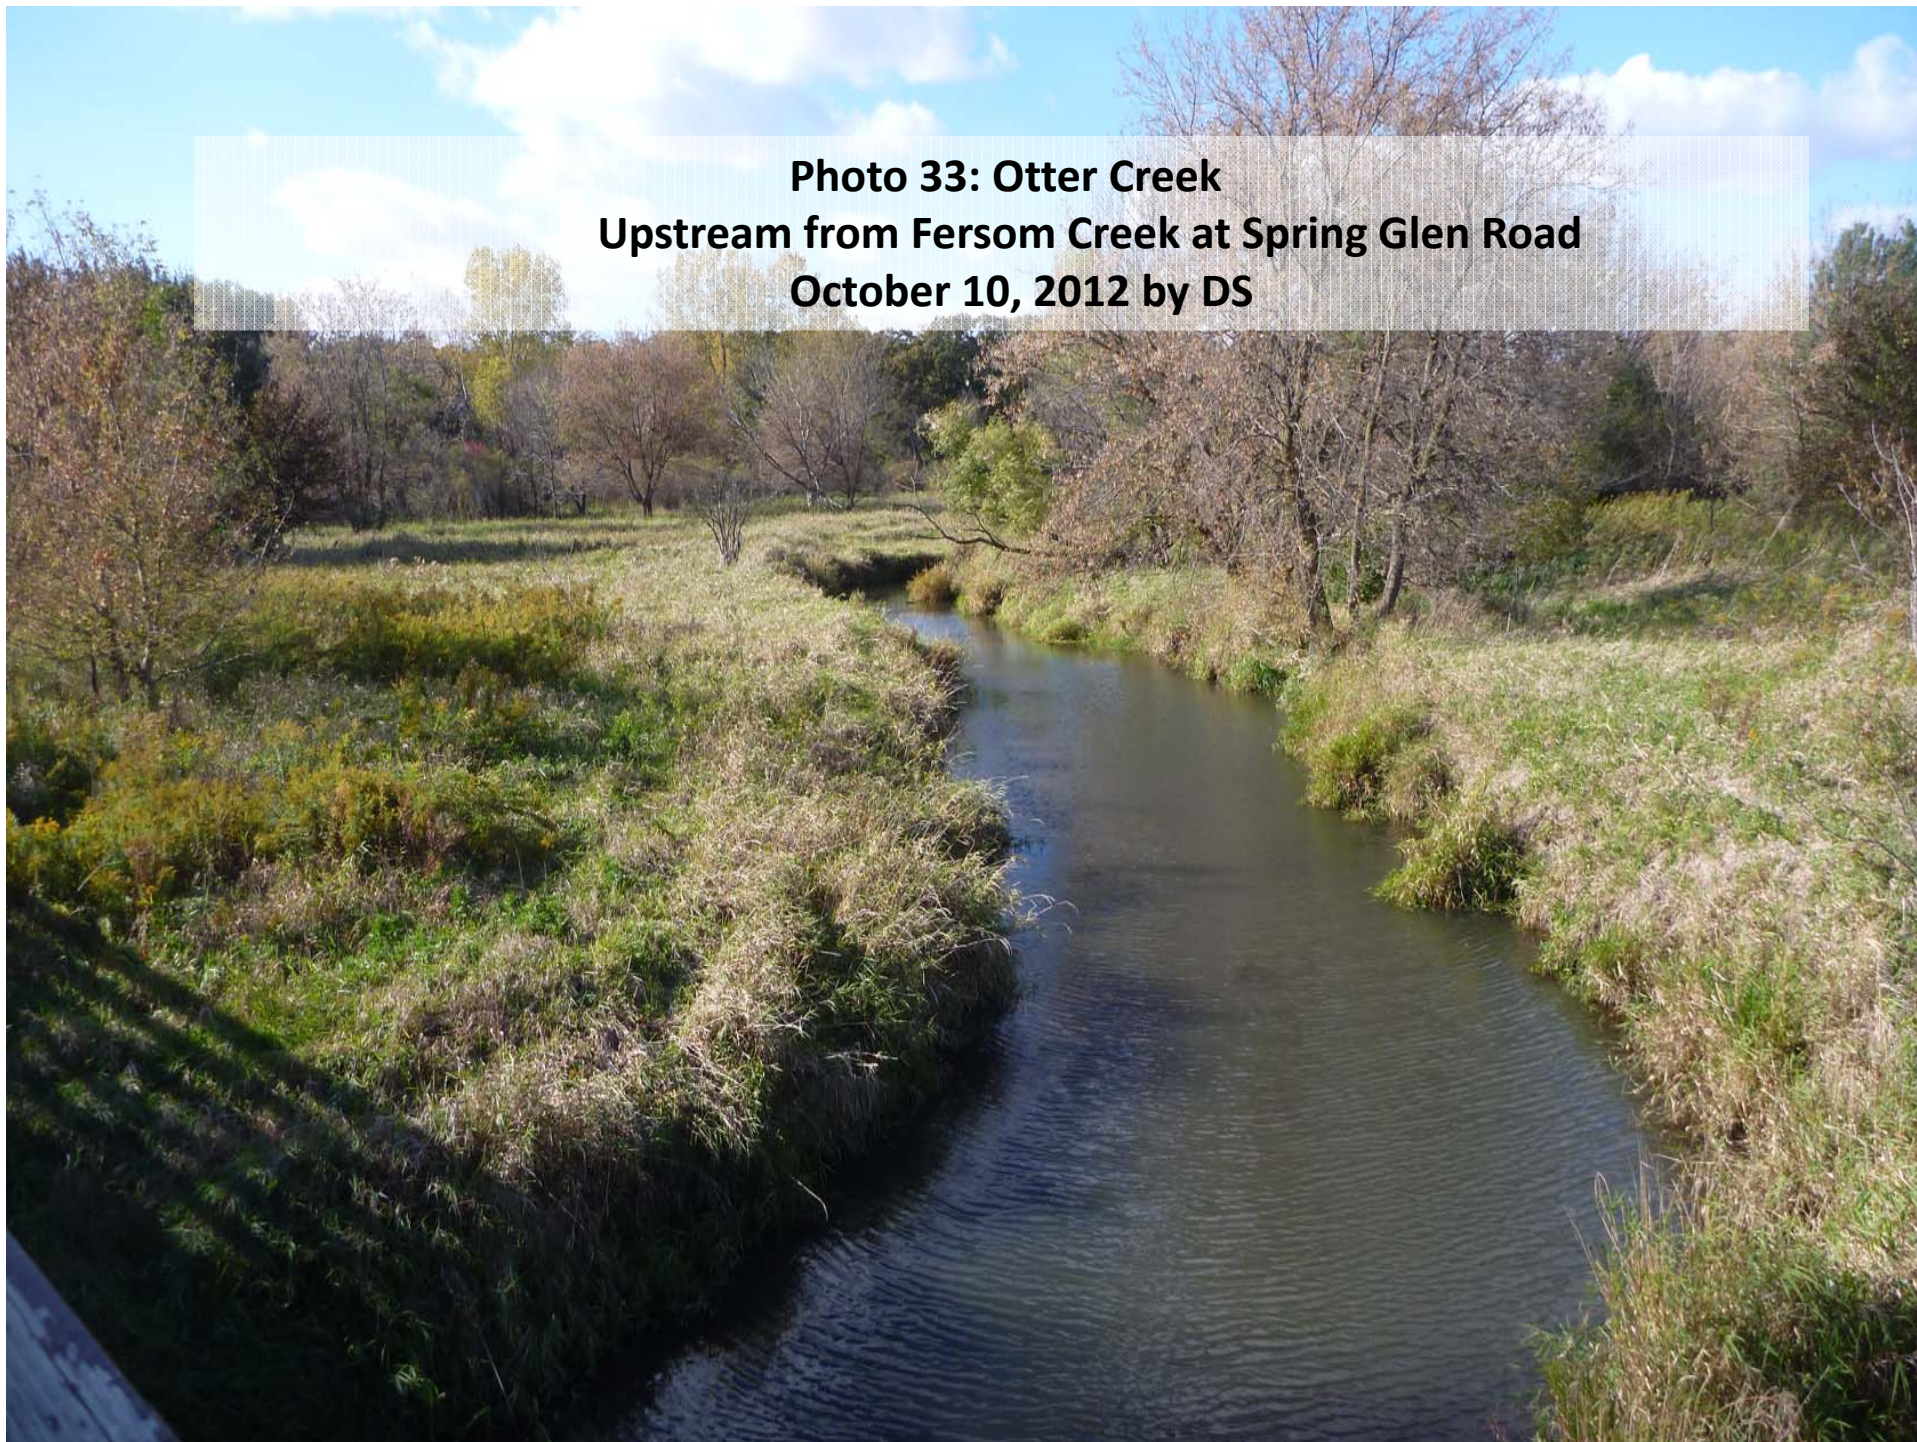

A photograph of a narrow creek, identified as Otter Creek, flowing through a wooded area. The water is dark and still, reflecting the surrounding trees and sky. Several large, fallen tree branches are scattered across the creek bed and along the banks. The trees are mostly bare, suggesting late autumn or early winter. The banks are covered with green grass and some fallen leaves. The overall scene is a natural, somewhat overgrown landscape.

CHICAGO WEATHER CENTER

chicagoweathercenter.com | BY TOM SKILLING AND WGN® WEATHER

Watch Tom Skilling forecasts Monday through Friday 11 a.m. on WGN News 7 and 11.

WEDNESDAY, OCT. 10

NORMAL HIGH: 65°

NORMAL LOW: 44°

RECORD HIGH: 86° (1962)

RECORD LOW: 27° (1964)

Weekend chill returns again for 50-degree day

LOCAL FORECAST

HIGH 50 LOW 40

- Chilly high pressure eases into the area.
- Skies clear just before sunrise as overnight clouds and showers move east.
- Early morning temperatures start out in the middle 30s in far western sections along and west of the Fox River Valley, ranging to the low 40s in the city proper, then slowly rising, barely reaching the 50-degree mark in most areas — about 15 degrees cooler than Tuesday.
- Breezy winds out of the west to northwest 15 to 22 mph gradually diminish at

NATIONAL FORECAST

The highest temp this past Saturday Sunday was 50 degrees after a brief warm the 60s Monday day, it looks like back to the 50s again Wednesday.

What a difference a year ago, when temperatures were in the 60s, better than above normal, was coming off five consecutive highs in the 80s. The month has averaged 4 degrees below and Wednesday is up being 26 degrees above the 76 recorded October average.

A brief Thursday by a day in the 70s. Then on low pre-empting out could be of several our v into
